12 result from relative sea-level change over the useful life
13 of the project).

14 (b) CLASSIFICATION OF ACTIVITY.—The Secretary
15 may not classify any repair or maintenance activity of a

23 tion of the Chief of Engineers, such repair and restoration
24 is warranted for the adequate functioning of the structure
25 or project for hurricane or shore protection, including to

1 ensure the structure or project is functioning adequately
2 to protect against projected changes in wave action or
3 height or storm surge (including changes that result from
4 relative sea-level change over the useful life of the struc-
5 ture or project), subject to the condition that the Chief
